### Silence is Compliance

Is your silence compliance?

Many want to be heard, they want to be seen

They want others to recognize their efforts, see them as they have been

What if I said that's not possible?

It's impossible for your cries to be heard and acknowledged

Knowing full well you've ignored the cries of others

You want to be seen and heard?

Hear and see the ones you've ignored

#### "Creatical"

"A mode of writing that involves merging

creative and critical thinking discourses

to produce deeper insights on how one

sees the world."

- Elina Mikkilä
